Editorial notes

A few papers collected during last conferences *Struktura* are published in this issue followed by an interesting paper on the beginning of the IUCr membership of the Czechoslovakia. A report on the activities of the CSCA in the period 2012–2014 includes also many photos from different meetings and in the end forthcoming international meetings are listed. 2014 was declared as the International Year of Crystallography so that some of the of the activities were dedicated to it.

General notes for authors

Different kinds of contributions are accepted - articles on the problems of atomic and real structure of materials, general papers on crystallography, review articles, book reviews, short reports about conferences, schools and seminars, information on X-ray and neutron laboratories, new instrumentation, computing methods and programs, letters to the editors and short messages. Two independent referees review the papers and review papers. The complete manuscript (electronic version) in English, Czech or Slovak with figures and tables must be delivered to one of the editors. Different text processors can be used for the text preparation. RTF text format can be exported from nearly any text processor and this is suitable also for editorial office. Please, look at the exact format of the references and keep it. English abstract and keywords must be placed at the beginning of each paper. The correct citation of the journal is *Materials Structure*.
