

ICCBM-16

Praha, Czech Republic, July 2 - 7, 2016

Collected Abstracts

Keynote lectures		72
Sessions		75
S1 Membrane protein crystallization I	Sunday, July 3, morning	75
S2 Crystallization of macromolecular complexes	Sunday, July 3, afternoon	77
S3 Membrane protein crystallization II	Sunday, July 3, afternoon	80
S4 Automation in crystallization	Monday, July 4, morning	83
S5 Crystallization approaches for serial crystallography	Monday, July 4, morning	86
S6 Crystal to beam	Monday, July 4, afternoon	89
S7 Chemistry of crystallization	Tuesday, July 5, morning	92
S8 Complementary methods	Tuesday, July 5, morning	95
S9 Scoring methods	Tuesday, July 5, afternoon	98
S10 Teaching macromolecular crystallization	Tuesday, July 5, late afternoon	101
S11 Crystallization methods for neutron diffraction	Wednesday, July 6, morning	104
S12 Theory and practice of crystallization	Thursday, July 7, morning	107
S13 Crystallization in industry and biomedicine	Thursday, July 7, morning	110
S14 Ionic liquids in protein crystallization	Thursday, July 7, afternoon	114
Poster Topics		118
Membrane protein crystallization	Poster session I, July 3-4	118
Crystallization of macromolecular complexes	Poster session I, July 3-4	124
Automation in crystallization	Poster session I, July 3-4	145
Crystallization approaches for serial crystallography	Poster session II, July 5-6	146
Crystal to beam	Poster session II, July 5-6	150
Chemistry of crystallization	Poster session II, July 5-6	151
Complementary methods	Poster session II, July 5-6	157
Teaching macromolecular crystallization	Poster session II, July 5-6	160
Crystallization methods for neutron diffraction	Poster session II, July 5-6	161
Theory and practice of crystallization	Poster session II, July 5-6	163
Crystallization in industry and biomedicine	Poster session II, July 5-6	171
List of Posters		176
Author Index		179
