UNVEILING A REVOLUTION IN THE WORLD OF X-RAY DIFFRACTION!

Do you want the highest sample throughput in a multi-user, multidisciplinary environment?

Would you like to increase the number of students who are able to perform advanced analyses and decrease the amount of training that is needed?

Do you want to reduce the possibility for mistakes in data collection?

Have you ever wondered why X-ray diffractometers are often not used during the night?

Curious? Sign up for the webinar!

LAUNCH WEBINAR
WEDNESDAY JULY 11,
4.30PM CET

In this live webinar Empyrean's Product Manager Fabio Masiello will enlighten you about the 3rd generation Empyrean platform.

Be among the first to discover what a difference an intelligent diffractometer can make.
