

## **Rigaku Innovative Technologies Europe in Prague (RITE)** is a part of

Rigaku Corporation Group

Since its inception in Japan in 1951, Rigaku Corporation has been at the forefront of analytical and industrial instrumentation technology. With hundreds of major innovations to its credit, Rigaku and its subsidiary companies are world leaders in the fields of X-ray spectrometry, X-ray diffraction, X-ray optics, as well as small molecule and protein crystallography. RITE is responsible for sales and support within the Czech and Slovakian market of all Rigaku X-ray products in material science and quality control. In addition, RITE is developing, producing and marketing special optical components and cameras. New opportunities in emerging markets like solar energy, biotechnologies and nanotechnologies are asking for strengthening our team.

Since our opening in Prague almost two years ago we have achieved excellent growth. Our international team of experts is happy to provide excellent services to our customers.

To strengthen our team we offer a full time position for a:

## **Sales and Marketing Manager**

### **Your duties are:**

- Turning leads into accountable business
- Applying and developing marketing and sales concepts for Rigaku products and services in RITE's territory
- Visiting leads and customers and presenting Rigaku's innovative solutions
- Attending scientific conferences and shows
- Preparation of sales/marketing literature including quotations and other documentation

### **Your Profile:**

- Degree in natural science (chemistry, physics etc.) or experience as a Sales and Marketing Manager in the analytical X-ray market
- Fluent in English and Czech/Slovak languages
- Skills for working in a team with multi-national culture

### **We offer:**

- A team oriented atmosphere, where the colleagues can develop their strength and skills
- A career in a growth oriented company
- The opportunity to combine science and technology with business experiences
- A performance based salary
